Gold Coated Microscope Slides

Gold Coated Microscope Slides and Coverslips are ideal Substrates for Fluorescence Microscopy, Surface Plasmon Resonance (SPR), and Surface-Enhanced Raman Spectroscopy (SERS).

Our slides are aluminosilicate glass, 1" x 3" x 0.7 mm, available with 10 nm, 50 nm or 100 nm gold films

Microscope Glass Slides with 10 nm Gold

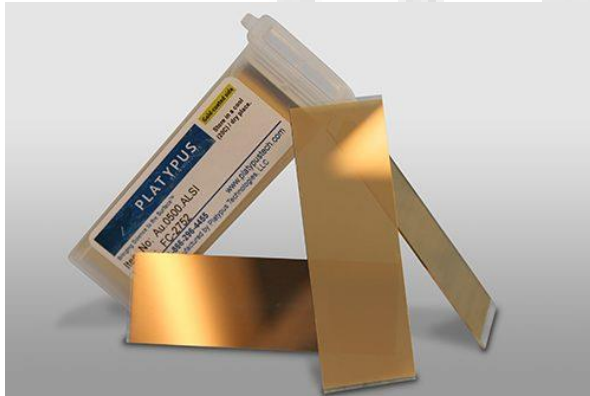

Glass slides-aluminosilicate / 10 nm of gold over a 2 nm Titanium adhesion layer, 1 inch x 3 inches x 0.7 mm, 5 count

Microscope Glass Slides with 50 nm Gold

Glass slides-aluminosilicate / 50 nm of gold over a 2.5 nm Titanium adhesion layer, 1 inch x 3 inches x 0.7 mm 5 count

Microscope Glass Slides with 100 nm Gold

Glass slides-aluminosilicate / 100 nm of gold over a 5 nm Titanium adhesion layer, 1 inch x 3 inches x 0.7 mm 5 Count
